CAREER OBJECTIVE

Junior Front-End Developer with knowledge of HTML, CSS, JavaScript, and React. Passionate about creating responsive and user-friendly web interfaces. Seeking an opportunity to apply my skills, gain hands-on experience, and contribute to developing high-quality web applications while continuing to grow as a developer.

EDUCATION

Bachelor of Computer Science and Information Technology | Expected 2028

Egyptian E-Learning University (EELU) • Major: Information Technology

EXPERIENCE & TRAINING

React Front-End Web Development Trainee | Digital Egypt Pioneers Initiative (DEPI)

July – December 2026

• Practicing front-end development with HTML, CSS, JavaScript, React, and Bootstrap.
• Building responsive web interfaces through hands-on projects.
• Developing teamwork and communication skills through project-based learning.

PROJECTS

AqarZone — Real Estate Website (Personal Project)

• Developed a responsive real estate website using HTML, CSS, Bootstrap, and JavaScript.
• Live demo: mariamhosny8-web.github.io/AqarZone/

Fashion Store Website (Team Project)

• Collaborated with a team to build an online fashion store, contributing to CSS styling and responsive layouts.

Drive Pay — Car Cost Calculator | TaskMaster — To-Do List

• Created interactive web projects to support car-cost calculations and daily task organization.

SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Bootstrap, Responsive Web Design
